

**Product Termination**

# MTL Product Line Termination Notice

## Wireless AP, RugiCAM-IP Mk1, LED units and IS power supply

(9469-ETplus, 9459-ET-xx, 9457-xx-yy and 9491-PS)

Product Line Manager

Global PLM

Plant Manager

**Reference No:** PTN-107-1-NA

**Date of Issue:** 17<sup>th</sup> May 2021

**Author:** Niaz Ahmed

**Products affected:**

9469-ETplus	MTL IS Wireless Access Point / Bridge
9459-ET-xx	MTL RugiCAM-IP IS camera (1 <sup>st</sup> gen.)
9491-	MTL IS power supply Ex ia/ib IIB, Uo 12.4V

**Accessories:**

9457-xx-yy	MTL LED Unit for RugiCAM-IP
------------	-----------------------------

**Reasons for Termination:**

The key reasons for the termination of the above 94xx range of IS Ethernet products are:

- End of life
- Obsolescence of components
- Product rationalisation
- Certification expiry

Due to the above reasons, Eaton can no longer offer these products as part of the IS Ethernet product family.

**Availability Policy:**

Eaton is planning a last time buy opportunity for 9491-PS IS power supply as it is FM certified and the replacement module does not have North American approvals. This will allow customers requiring N American approvals to purchase spares they will require for the remaining lifetime of these products. The other parts are terminated with immediate affect due to supplier running out of components. All orders for 9491-PS must be received by Eaton MTL Product Line by Tuesday 31<sup>st</sup> August 2021. All shipments will be scheduled before 30<sup>th</sup> September 2021.

**Replacements / Alternatives:**

Eaton offer the new 947x-ET/ETG gigabit IS Ethernet range, 9459-ETPLUS-CSL and 9491-PS-PLUS as suitable alternatives for the products under termination. Please see below table for specific alternates-

Part number	Description	Preferred alternative
9469-ETplus	IS Wireless Access Point / Bridge	9479-ET(G)
9459-ET-XX	MTL IS IP Camera (1 <sup>st</sup> gen.)	9459-ETPLUS-CSL
9491-PS	IS power supply Ex ia/ib IIB,Uo 12.4V	9491-PS-PLUS

### Required Actions:

- Regional Sales Directors to advise sales force of termination arrangements.
- Sales channels to make all IS Ethernet customers aware of product termination and opportunity for any last time purchases for 9491-PS spares.
- Last Time Buy orders for 9491-PS to be placed before the end of August 2021.
- Shipments will be made as soon as the product is available or by 30<sup>th</sup> September 2021, whichever is the earlier
- Marcomms to add product termination notice on web page with Last Time Buy details and withdraw promotional material and literature.
- Product Line Manager to set ZA obsolete w/delivery X-distr. status flag in SAP system to indicate product is terminated on LTB date.
- Product Line Manager to set Z4 obsolete flag in X-distr. status SAP system to indicate product is terminated when all stock used up.
- Drawing office to withdraw all related drawings after parts are obsolete in SAP.
- Marcomms to move from active to legacy products section of web on Last Time Buy Date.
