

## ZoneMaster range

Ideally suited to protect small to medium service entrance panels from induced surges and transients

- **Enhanced redundancy built into each module**
- **Easy to read status indication**
- **Thermal and short circuit fusing**
- **Low let-through performance with high current impulses**
- **100k AIC short circuit current rating**
- **Replaceable bolt-in modules**
- **Large block MOV technology**
- **UL 1449 3rd Edition**
- **15 year product warranty**

**The ZoneMaster range of surge protection devices** combines unparalleled power handling capability, application versatility, proven circuitry along with simple installation, features which make these units the ultimate mains power protection solution. With configurations suitable for all International supply voltages, ZoneMaster is truly a versatile and flexible protection range.

**ZoneMaster devices are modular in construction.** Individual modules are bolted to a large surge return plate to minimise transient impedance. These colour coded, replaceable modules, with a UL 94-5V rated plastic casing are supplied mounted within a durable IP66 rated enclosure. ZoneMaster units are easy to install via simple wall mounting, although flush mounting is also an option.

**Large block, 3 terminal Metal Oxide Varistor (MOV) protection technology** is utilised within the ZoneMaster range. The dual protection

circuits of ZoneMaster 150 devices provide full redundancy ensuring the site is never unprotected. All ZoneMaster units also include thermal and short circuit fusing for additional safety.

**Status indication is supplied as standard,** normally open/ normally closed contacts change state to indicate a fault. An optional remote monitoring unit is also available providing audio and visual indication of protector status, along with features such as a test switch for checking the monitoring circuitry and an audio alarm silence switch.

**The optional mains power filter** has a noise attenuation of 75dB at 100KHz- 100MHz and will attenuate 6kV transients down to just 200V. This mains power filter is UL 1283 Listed and all ZoneMaster devices have UL 1449 Listing for added peace of mind.

# ZoneMaster range

September 2016

## SPECIFICATION

All figures typical at 77°F (25°C) unless otherwise stated

### Maximum continuous operating voltage

120V — 140Vac  
240V — 280Vac  
277V — 320Vac

### Lines protected

ZoneMaster 170  
L-N 170kA, L-L 170kA, N-G 170kA  
ZoneMaster 200  
L-N 200kA, L-L 200kA, N-G 200kA

### Duty cycle performance (8/20μs)

100,000A >4 impulses  
10,000A >8,000 impulses  
170A infinite

### Impulse current for class I (I<sub>imp</sub>)

50kA (10/350μs)

### Long duration current pulse (10/1,000μs) capability

3,600A (tested)

### Ambient temperature limits

-40°F to +185°F (working)  
-40°C to +85°C (working)

### Humidity

95% RH (non-condensing)

### Enclosure

NEMA 1, 2, 3, 3S, 4, 4X, 12 & 13 (IP66)

### Terminals

2 AWG (32mm<sup>2</sup>)

### Mounting

Surface mount by 0.31" (8mm) diameter holes

### Indication

Continuous visual status monitoring  
Green LED Lit = Full protection  
Red LED Lit = Reduced (Standby) OR No protection  
Green LED out = No power to protector

### Remote contacts

NO/NC

### Weight

Approx. 7 lbs (3.2 kg)

### Dimensions

Enclosure — see figure 1

### EMC compliance

BS EN 60950: 1992  
BS EN 61000-6-2: 1999

## OPTIONAL POWER FILTER

Limiting voltage  
200V (@ 3kA 8/20μs)  
Maximum attenuation (typical)  
-75dB (100kHz to 100MHz)

## TO ORDER SPECIFY -

Model number as per specification table  
Add suffix X for EMI/RFI filter  
Add suffix F for flush mount options

## OPTIONAL REMOTE MONITORING UNIT

ZM11101 — Battery operated
