

# WMO-800S Installation Guide

## Statutory Requirements

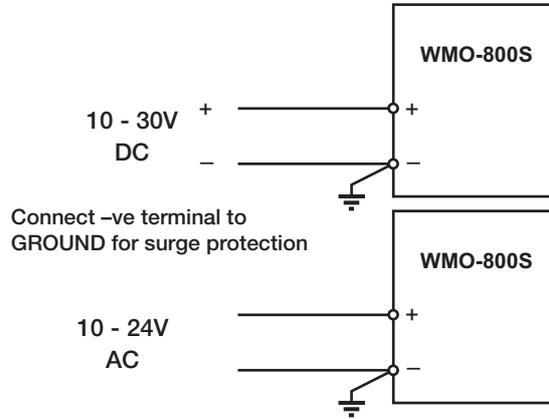

Local regulations impose limits on the permitted radiated power from unlicensed equipment. High gain antennae may be used *only* to compensate for cable losses. Systems should be designed for a duty factor of less than 10% to comply with licence-free regulations.

## Antenna Installation

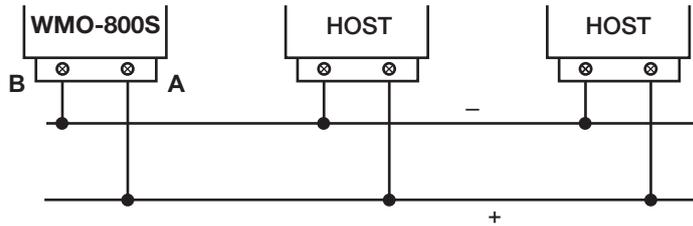

# WMO-800S Wiring

## Power Supply 10 - 30V DC / 10 - 24V AC

## RS485 Connection

## RS232 Connection
