### Tofino™ Enforcer™ revolutionises Modbus TCP/IP security...

For the first time in the history of industrial automation, a security module designed specifically for managing the leading SCADA protocol, Modbus TCP, is commercially available from MTL. This revolutionary loadable security module (LSM) for our Tofino™ Industrial Secure Solution enables owners of control and SCADA systems to regulate Modbus network traffic to a level of detail that has never before been possible, thereby increasing network security, reliability and performance of critical systems.

### MTL receive MOXA certification...

Following recent training in Prague, MTL has been awarded the Moxa Technical Support Certification (MTSC) for all four product areas, this now enables us to offer our customers not only the best product but also technical support.

- Industrial Networking
- Industrial Wireless
- Embedded Computing
- Device Connectivity

### Full Gigabit Ethernet switch for real time transmission...

MTL are pleased to be able to offer a full Gigabit Ethernet switch to enable the real-time transmission of massive amounts of video, voice and data across a network. With so much Gigabit speed packed into one switch, Moxa's EDS-G509 provides maximum performance through every port, and is ideal for upgrading an existing network to Gigabit speeds or building a new full Gigabit backbone.
